

Well, the long overdue rain and made up for lost time. I always to be expected, a lot of folks might because it came on Sunday's ball games. Breaks Sunday's and dreamin' a folks drilled up in their yards. Here's for tomorrow:

CHIC—Fair tonight and Tuesday.

The extremes in local temperature today were: High, 78; low, 63.

LYRIC

TONIGHT AND TOMORROW

He's afraid of 'em! That's why! He's afraid they'll see him blushing if they catch him!

Yes, it's the sad, sad truth, Cuthbert was afraid of the girls!

What are you going to do with that sort of a kid? How can you make his nature over?

"Pinkie" LaRue knew. There was a kick in her chorus girl method. The thing that makes "The Girl Dodger" a great picture is—

The "kick" that "Pinkie" gave Cuthbert. You'll be sorry if you miss it.

Enters B.F. Kimble's Office

Attorney Walter L. Dickey, who has been associated with Attorney Mark A. Crawford, has removed his offices to the sixth floor of the First National Bank Building, and hereafter will have office room with Attorney J. E. Kimble in Suite 61, First National Bank Building.

Most Successful Year is Closed

The First Baptist church has just closed the most successful year in its history. It has doubled its gifts to missions, was the first church to pay its 15 percent increase, carried its debt in a marvelous way, having expended

over \$10,000. The Lord surely blessed the work both financially and spiritually. Light received the hand of fellowship at communion services Sunday. We are praying for a glorious revival.

REV. A. L. AVERETTE

NOTICE, MEMBERS OF U. B. CHURCH

An important meeting of the members of the United Brethren church will be held tonight at the church. Every member of the congregation is

metropolitan club dance a big success

Eighty-five couples of the most refined people in the city attended the first Saturday night dance of the Metropolitan Club last Saturday night at the New Hotel. Tonight (Monday) beginning at 8 o'clock the regular first of the week hop will take place, and Thursday night a big one of town feature and a special musical program will be delivered by the Musical Association.

Notice, Members United Brethren Church

Every member is requested to be present tonight at 7:30 at church to consider employing pastor.

MANLY CHURCH NOTES

The Congregational church will meet Tuesday evening at the home of Mr. Albert Decker, 201 Franklin Avenue. Addressing business, Messrs. John Thompson, John E. R. and E. P. Ricker.

Prayer meeting Wednesday evening

Miller's Antiseptic Oil. Known as

Snake Oil

Positively Relieves Pain In Ten Minutes

Mission At St. Mary's

The Mission which opened at St. Mary's church Sunday had a most promising beginning. The church was filled to capacity both morning and night. At the ten o'clock service Father McKeough preached a sermon on the Gospel of the Sunday, "The Greatest Commandment in the Law." At the evening service Father McKeough preached on "Why God Made Man?" The inquiry class was well attended. Both of the missionaries have found strong voices and are heard without difficulty. The responses were dignified with their deep breathing, literary style and oratorical delivery. The daily order of services for the week will be:

Masses at 8:30, 9:15 and 8 o'clock. Instruction follows the 8:30 and 9 o'clock masses.

In the afternoon, "Way of the Cross" at three o'clock. In the evening at 7:15, inquiry class in the school house. At 7:45, literary, sermon and benediction.

EVERY MEMBER CANVAS BIG SUCCESS

Forty teams pulled off the Every Member Canvas of Trinity M. E. church Sunday and as usual this annual affair was a big success. Every family in this large congregation was visited and pledges for the new year were secured.

New Minister Assigned Here

Rev. W. S. Beck is to leave Portland, Me., for his new home. He has been assigned to the church. The assignment of a new minister was made Sunday at the annual Allen M. E. Conference held in Cincinnati. Rev. Watson, pastor of the Portland M. E. church, was assigned to the local church. He will come to this city as pastor in a few weeks. The pastor return failed.

FIRST CHRISTIAN CHURCH NOTES

Section Two will meet at the church, Thursday afternoon. Section One will meet at the home of Mrs. Webster, 323 Front Street Friday afternoon. All members are invited.

Class Three, Loyal Women, will meet at the home of Mrs. Shamp, 1549 Seventh Street, Thursday evening. Let all members come.

Section Three will meet Thursday afternoon at the home of Mrs. Barker on Fifth Street.

Board meeting (stating) evening, Friday at 7:30 o'clock.

Prayer meeting on Wednesday evening at the usual hour. Let all members of the church attend this service.

FIRST BAPTIST CHURCH NEWS

Monday—Girl Scouts meet at the church at 7 o'clock.

Wednesday—Prayer meeting. Leader, J. A. Wheeler, assisted by the deacons.

Friday—Choir practice at 7 o'clock. Boy Scouts meet in the basement of the church.

SUNDAY SCHOOL ATTENDANCE

Sunday the Bible School attendance suffered a decrease the unfavorable weather causing many to stay at home. The total number was 1793 while a week ago the total was 1878. It was really high at the Franklin Avenue school where 475 were in attendance.

Trinity was in first position with First Christian and Second Presbyterian.

Trinity's standing:

First Christian 583

Second Presbyterian 541

Franklin Ave. M. E. 475

SOCIETY

At six o'clock this evening the marriage of Miss Bernadine Clara Schreier, the lovely daughter of Mrs. Elizabeth Schreier, of Elkhart street, and Mr. Roy Ward, son of Mr. William Ward, of Cincinnati, will be united in matrimony to take place in Cincinnati. The Rev. Mr. Stevenson, of the Church of the Covenant, officiating. The attendants will be: Miss Minnie Butler of this city, a devoted friend of the bride, and John Schreier, brother of the bridegroom. The bride's mother is also among those in attendance. The bride's costume will be of great beauty, and the bridegroom's suit will be of dark blue.

The wedding dinner will be served to the guests at the Country Club, after which the young couple will take a short party, long moonlight trip, and upon their return will reside in New York.

Until recently the bride was a popular clerk in the Martine Hotel, where she was a host of friends by her attractive personality. Her many friends will listen to extend their hearty congratulations.

Rev. T. M. Patterson, of Hyman, Montana, who has been in New York attending the meeting of the Board of Home Missions, has been visiting here for a few days. With his wife, Mrs. T. M. Patterson, of Portland, Maine. He went to Ripley today to visit until Wednesday with relatives.

Mrs. Emma McKeough, who has been visiting here for a few days, has just returned to her home in Portland, Maine. She was accompanied by her sister, Mrs. Frank McKeough, of Portland, Maine, and other local relatives. She has returned to her home in Portland, Maine, where she is residing with her family.

Mrs. Kate Lott, Sunday school teacher of Trinity church will be in the city for a few days. She will be in the city for a few days. She will be in the city for a few days.

Mrs. George Lott, Sunday school teacher of Trinity church will be in the city for a few days. She will be in the city for a few days. She will be in the city for a few days.

Demonstration of Millinery Underselling!

Starting Tuesday—We and you have known all along that millinery prices were steadily advancing. Added to this came word that a strike last week of millinery in the East would send prices more skyward still. In the face of this we start Tuesday a demonstration of what we can do in the millinery selling line. Your savings may total 100 per cent before long.

Trimmed And Tailored Hats

A huge table of splendid styles that show you how to wear, splendid velvet, good colorings, new trimmings, latest models. Choose from these starting Tuesday \$2.98

Children's Hats \$1.29 to \$4.98

Misses' "Tams" .98c to \$1.98

Hat Trimmings .25c up

Model And Made Hats

Conventional—you'll agree—are the wonderful values of our model and made hats at this price. Most millinery stores would charge 50 to 75 per cent more on these values right now. Really splendid quality, becoming shapes, styles the latest, all the newest trimmings—4000 from hundreds. All different—\$4.98

Other Groups at \$3.98 to \$9.95

Untrimmed Hats up from \$1.49

Child's Sweaters \$1.49

Children's warm knit sweaters in rose, green, red and white.

Gauze Vests 12 1-2c

Women's fine rib, round neck gauze vests, 15c value.

Women's Sweaters \$4.98

Slip on styles in women's knit sweaters in all colors, 8c and 87

Women's Hose 15c

A splendid 15c value in women's stockings. Black, grey and tan.

Child's Hose 25c

A good quality hose in black, white or tan. 25c value.

Voile Waists 98c

White voile blouses in dainty styles, some color trimmed.

Sweater Vests \$1.98

Women's sleeveless knit sweaters in a variety of colors, 85c value.

Boys' Pants 98c

Boys' \$1.25 and \$1.41 knicker trousers full cut, assorted patterns.

\$1.50 Purses 98c

New assortments in leather purses and bags, \$1.75 and \$1.50 values.

Men's Shirts \$1.49

Nifty stuff, soft, knickered \$2 adults. Soft or stiff cuffs.

603-805 CHILlicothe STREET

REV. CARTWRIGHT CELEBRATES 5TH ANNIVERSARY OF LOCAL PASTORATE

Rev. Bliss R. Cartwright celebrated the completion of the fifth year of his pastorate at the Central Presbyterian church this city Sunday. Dr. Cartwright presided both morning and evening. His text in the evening was taken from the 21st chapter of Matthew, the 10th verse, which reads: "And he came to the second and said: 'Thou shalt make you first. Let him go first and he will not go.'"

In part he said: "The first essential of life is truth. Nations which live by the truth are the nations which are built upon the truth. Those that are built upon the truth are the nations which are built upon the truth."

Rev. Cartwright presided both morning and evening. His text in the evening was taken from the 21st chapter of Matthew, the 10th verse, which reads: "And he came to the second and said: 'Thou shalt make you first. Let him go first and he will not go.'"

In part he said: "The first essential of life is truth. Nations which live by the truth are the nations which are built upon the truth. Those that are built upon the truth are the nations which are built upon the truth."

FOR RENT - 2 rooms for light housekeeping, 1014 Chillicothe.

FOR RENT - Unfurnished four room flat with bath. Phone 1455-N.

The Markets

NEW YORK STOCKS

NEW YORK, Oct. 6 - Further encouraging news from Washington and the settlement of the British railway strike were the factors which contributed mainly to the very strong opening of today's stock market. Crucible Steel featured the early movement, adding 7 points to Saturday's point, rally but leadership soon was assumed by General Motors, which rose 12 points on a very few transactions. Other popular stocks, equipments, motors and oils were 2 to 7 points over last week's final quotations. Shipplings also made material improvement and rails gave promise of a continuance of the recent broad demand.

Steels and equipments extended their gains on fashionable advices from leading centers of industry and the general movement was almost wholly maintained by the British railway strike and the settlement of the British railway strike.

Examiner's Report Covers Meat, Milk And Dairy Inspection

The following is another installment of the state examiners report on the health department.

MEAT, MILK AND DAIRY INSPECTION

MEAT, MILK AND DAIRY INSPECTION
W. M. KELL, Inspector.
 In accordance with rule 10 of the board of health it becomes the duty of the inspector to examine the sanitary conditions of all enclosures where cows are retained where milk is used or sold within the city; to test the quality of milk sold within the city limits; to visit places where other than pure dairy products are sold; to inspect meat, fish and fowl offered for sale at the markets or various places within the city. He is required to revoke the permits of all vendors of milk whose milk is found adulterated or below quality, and when unwholesome meat is found he shall condemn the same and cause it to be removed or destroyed, and to prosecute the person offering same for sale.

If the duties of the inspector as above outlined are faithfully performed the inhabitants of the city will be afforded ample protection against impure and unwholesome milk and meats.

As per the statement of the health officer the city, in conjunction with the inspector, possesses the apparatus whereby the milk supply can be subjected to both the Babcock and bacteriological test. He also states that prior to the time a leave of absence was granted to Dr. Kell, a test was made of milk vended in the city but that since said time no such tests have been made. It is very important that frequent tests be made of the milk supply in order to determine as to its quality and purity, and effective inspections should be made of dairies and milk supply houses having in view the condition in which they are kept as to cleanliness, as well as the condition of the cans as to healthfulness. As per the minutes of my 6, 1918, it would appear that one of the dairies was represented to be in a very unsanitary condition. The health officer states that he, instead of the inspector, makes inspection of dairies and that as a rule he finds them kept in a satisfactory condition.

Other than certain inspections made by the health officer there appears to have been no inspection of meat shops or the meats sold therein. To a certain extent this provision of rule 10 has been a dead letter. Much disease may be prevented if the milk and meat supply is wholesome, hence the board of health should direct its activities in a greater degree to this phase of its work.

In July 1918, the board issued an order for the monthly inspection of places where food supplies are prepared or sold. On September 5th the health officer reported that he had inspected the various bakeries, meat shops and restaurants and made a number of recommendations for improvements. This was a proper move upon the part of the board and there should be no discontinuance of the practice thus instituted.

MILK PERMITS

John W. Herndt, Collector.
 In accordance with a resolution of the board of health all parties vending milk in the city are required to first secure a permit and to pay a fee of fifty cents therefor; said permits to expire annually on the first day of January each year.

COLLECTIONS

	1917	1918
Milk Permits	\$19.00	\$20.00

SUMMARY

	1917	1918
Collections on hand Feb. 28, 1917	\$2.50	
Collections Mch. 1, 1917-Sept. 30, 1918	\$21.50	\$21.50
Collections deposited Mch. 1, 1917-Sept. 30, 1918		\$11.00
Collections on hand September 30, 1918		\$20.00

The collections on hand September 30, 1918, are represented in permits No. 1308 to 1403 inclusive.

The milk permit fees were checked from stub receipts No. 1228 to 1403, inclusive, Nos. 1241 and 1249 being void. It would appear that a greater number of permits were issued under date of August 10, 1917, and August 1 and September 1, 1918.

The clerk keeps a book record of all collections, entering each collection separately.

In this connection we desire to call the attention of the clerk to the provisions of Section 250, General Code, which requires every official, except the mayor and the water works collector, whose duty it is to collect public revenue, to deposit same in the city treasury weekly.

RECORD OF MEAT AND MILK DEALERS

Section 449, General Code, provides in part:

"The board of health shall keep for inspection a record of the names, residences and places of business of all persons engaged in the sale of milk and meat."

Such a record as provided in the law above quoted is not kept by the board of health. The keeping of such a record is mandatory and there should be no further delay in its installation and proper keeping.

VAULTS AND VAULT CLEANING

Under a resolution of the board of health, as found on pages 31 and 32 of the manual, all parties desiring to construct privy vaults or to have same cleaned shall first procure a permit and pay a fee of fifty cents.

So far as indicated by the records but fifteen permits were issued during the period omitted for the construction of vaults.

In accordance with Sections 2 and 5 of the resolution above referred to the plumbing inspector is the party designated to issue vault cleaning and construction permits.

VAULT CLEANING AND CONSTRUCTION PERMIT FEES

Frank H. Bart, Collector.

	1917	1918
Vault Cleaning permits	\$19.00	\$20.00
Vault construction permits	\$1.00	\$1.00
Total collections	\$20.00	\$21.00

SUMMARY

	1917	1918
Collections on hand Feb. 28, 1917	\$1.00	
Collections Mch. 1, 1917-Sept. 30, 1918	\$18.00	\$20.00
Collections deposited Mch. 1, 1917-Sept. 30, 1918		\$1.00
Collections on hand September 30, 1918		\$1.00

The vault cleaning and construction permit fees were checked from No. 1411 to 1462, and No. 1500 to 1501, inclusive.

As per the statement of the health officer, the vault cleaners are permitted to charge the parties served fifty or seventy cents a barrel, the price being governed by the distance traveled. No vault is allowed to become filled within eight feet of the general surface of the ground. A vault is required to be built in air tight apparatus, and to be conveyed to land leaved by the city in the "bottom" situated at the southeast corner of Market street, where it is deposited. The land is rented from W. H. Mischel for which the board agreed to pay an annual rental of \$20.00; the rental has not yet been paid.

Here They Are!

Portsmouth People Take Shamrocks If Bilious, Yellow and Constipated—Quick Relief!

If you are not feeling well and constipated with pale, yellow skin and feeble digestion—Take Shamrocks Laxative and Pills. They put you on your feet. They are sold by all good druggists in Portsmouth, at 25c, guaranteed. All vegetable. Try them.

made England fear for her world hegemony. The Anglo-Saxon felt his ancient supremacy threatened. The English government concentrated its fleet, which had had its base of operations until recently in the Mediterranean, in the North Sea and English Channel.

Lord George's memorable speech on July 21st, 1911, threw a cold and sudden light on England's intentions which had hitherto been concealed with great skill. It became increasingly certain that a war would be forced upon us, and that it would be a struggle the like of which the world had never seen. The fact that in non-military circles the probable strength of the enemy was underestimated constituted a real danger.

Asked For Big Army Increase

At the eleventh hour, in the autumn of 1912, where there was no longer any doubt as to the enemy's intentions, the army was working with might and main with truly German devotion to duty. I drew up a plan for an important increase in our effectiveness, which met with approval from both the more discerning sections of the public and the more far-sighted among the Parliamentary parties.

I was able to induce General Von Moltke to approach the Imperial Chancellor with the plan, who must himself have considered the situation exceedingly serious, for he immediately agreed to it.

He instructed the Minister for War to prepare a bill, without, however, carrying on at the same time any clearly defined and systematic political campaign calculated to cover correctly the attitude of the various powers. This should have secured to him as a necessary conclusion.

Having regard to the purposes for which it was conceived, this Army Estimate for a million marks was not of an aggressive character. It merely aimed at adjusting the disproportion in the numerical strength, and had in view the absolute enforcement of universal compulsory service, for there were still thousands of able-bodied men who did not serve their country.

The budget provided for personnel, but more especially for the strengthening of our fortifications and for more material. All this was voted, but what I had most earnestly desired, the addition of three new army corps, was given no consideration; it did not even appear in the estimate.

Pointed For Army Demand

The failure to provide these three additional army corps was paid for dearly later on. At the beginning of the war these additional corps were sorely needed, and the new formations which were added in the autumn of 1914 displayed all the defects of improvisation. Later on the raw formations were made stronger at the staff, but the existing corps, on the other hand, were weakened by the contributions they were called upon to make.

However, before the whole bill was passed, I was transferred to Düsseldorf, as commanding officer of the 29th

Infantry Regiment.

I attributed the change partly to my having pressed for those three additional army corps.

Regimental work is full of life and activity. Animated intercourse with and for men who were entrusted to my care; the training of officers, N. C. O.'s and men and the military education of the youth to manhood, particularly attracted me after a long period of staff work. For thirteen years I had had nothing to do with the routine of a regiment. Now my chief work was the inspection of recruits.

In the eighties of the last century I had on seven different occasions had charge of recruits—with the 57th Infantry Regiment in old Westphalia, and with the Marine Infantry in Wilhelmshaven and Kiel. Later on I had done several weeks' service with the 5th Grenadier Regiment in Frankfurt-on-the-Oder, and from 1908 to 1909 I was in charge of a company of the 1st Infantry Regiment in Thuringia. I shall never forget. Now that I was in Düsseldorf, I was glad of the experience gained during those years.

Army To Aye Germans Too

I realized all the more the great responsibility which rested on me as commanding officer of the regiment, as I saw the coming war was rapidly approaching. In various addresses to my officers I pointed out that extremely serious times we lived in.

In the army I saw, not only the assurance of Germany's safety and future, but also a guarantee of internal peace.

In 1913—Thank God!—there was not the least sign that the army would have to be used in that capacity.

Discipline, to which officer and private alike were subjected, was, in my opinion, the only basis on which an army could be effectively trained for war. Such a training could only be acquired through long service. It is only what discipline makes sacred in a man that is lasting, and outlives even the demoralizing impressions of the battlefield and the psychological changes wrought by a long campaign.

It was our thorough discipline and training to peace-time which was to make up for our inferiority in numbers in the coming war.

My aim was to turn highly-disciplined troops into responsible men possessed of initiative. Discipline is not intended to kill character, but to develop it. The purpose of discipline is to bring about uniformity in co-operation for the attainment of a common goal, and this uniformity can only be obtained when each one sets aside the thought of his own personal interests—this common goal is—Victory.

Hard To Send Men To Death

Words fail to describe the demands that are made of a soldier in battle. To go "over the top" under enemy fire, indeed, an heroic act, but it is by no means the most difficult. How much resolution and readiness to shoulder responsibility is required of a man who either has to lead or send others to certain death. There are acts the appalling nature of which no one can imagine who has not himself had to perform them.

Besides the care of the men and the education of the non-commissioned officers—an education which was also calculated to assist them in their future callings—I attached the greatest importance to increasing the efficiency of the officers' corps and the training of the younger officers. While the personnel of the regular officers' corps is always the same, the officers of the Reserve, the N. C. O.'s and men change continually.

So the officers' corps is the main spring of the army. The officers must therefore be thoroughly conversant with the army's great deeds, and possess a comprehensive knowledge of their country's history, as it is expected of all men who have to lead others. Nothing can be learned from its historical context without serious prejudice.

No one should forget that in times of danger the guardianship of the fortunes of the state devolves upon the officers, supported by the N. C. O.'s. This explains the exclusiveness of the officers' corps and their holding aloof from political life.

Regiment Named For Him

I aimed at making my officers conversant with the conditions of modern warfare, and endeavored to strengthen in them that self-reliance which is essential to the fulfillment of their difficult task, but must not develop into arrogance.

I zealously devoted myself to the training and education of the regiment, and had afterwards the satisfaction of learning that it provided the worth in the face of the enemy. It was a great pleasure to me when, in the course of the war, I was first placed in a position of my regiment, and later, appointed its colonel. At the time of my resignation it was named after me; I am indeed proud of the German Infantry Fusilier Regiment.

From command of this Infantry Regiment, Gen. Ludendorff in 1912, as he explains in his memoirs, was sent to command a brigade in Alsace and when the war began was made quartermaster-General of Von Hindenburg's army. His accidental opportunity to lead troops into the war gave him his chance to take command in France and later to take command of Germany.

TROOPS PATROL GARY STREETS

(Continued From Page One)

Street & Tube Company early this morning, there was no change as the third week of the steel strike began here today. The Carnegie Steel Company now has 1100 men at work out of a normal six thousand and the sheet and tube company about 700 against a normal 15,000. These men are employed chiefly in repair and upkeep work. The valley remains quiet and orderly and the strikers are holding firm.

STRIKERS' RANKS STRONG

CLEVELAND—The steel strike in Cleveland entered its third week today with union leaders declaring their ranks are as strong as on the day of the walk-out and plant officials, nearly all without any definite plans for resuming operations.

MORE WORKERS BACK

BALTIMORE—The management of the Sparrows Point branch of the Bethlehem Steel Corporation reported accessions to the number of tin plate workers at work today and declared that indications were the tin production of the mill would be back to normal in a few days.

THIS STRIKE ENDED

CONTSVILLE, PA.—The steel strike in Contsville is ended. The strike leaders this morning advised those men still out to hunt for other jobs and go to work. When the strike began two weeks ago, 1,000 of the between 5,000 and 6,000 men employed by the Contsville branch of the Midvale Steel Company and the Lukens Steel Company quit work. The number of strikers dwindled each day until today there were about 200 still out.

Dance Well Attended

About 75 couples attended the first Saturday night dance of the Metropolitan Club held in the Ten Hur Hall, The Musical Fire rendered a splendid musical program.

The merry party danced until 11:30. The Metropolitan Club is now holding dances on Monday, Thursday and Saturday nights of each week.

Investigations Started

It was learned Saturday night that officials were investigating the alleged profiting on top and soft drinks sold in the regular five cent soft drink. Officials say that ten cents is being charged for a bottle of ordinary pop when the price should be five cents.

Cuticura Soap is Easy Shaving for Sensitive Skins

The New Up-to-date Cuticura Method

TROOPS PATROL GARY STREETS

(Continued From Page One)

Street & Tube Company early this morning, there was no change as the third week of the steel strike began here today. The Carnegie Steel Company now has 1100 men at work out of a normal six thousand and the sheet and tube company about 700 against a normal 15,000. These men are employed chiefly in repair and upkeep work. The valley remains quiet and orderly and the strikers are holding firm.

STRIKERS' RANKS STRONG

CLEVELAND—The steel strike in Cleveland entered its third week today with union leaders declaring their ranks are as strong as on the day of the walk-out and plant officials, nearly all without any definite plans for resuming operations.

MORE WORKERS BACK

BALTIMORE—The management of the Sparrows Point branch of the Bethlehem Steel Corporation reported accessions to the number of tin plate workers at work today and declared that indications were the tin production of the mill would be back to normal in a few days.

THIS STRIKE ENDED

CONTSVILLE, PA.—The steel strike in Contsville is ended. The strike leaders this morning advised those men still out to hunt for other jobs and go to work. When the strike began two weeks ago, 1,000 of the between 5,000 and 6,000 men employed by the Contsville branch of the Midvale Steel Company and the Lukens Steel Company quit work. The number of strikers dwindled each day until today there were about 200 still out.

Pretty Dresses and Middies For The Children

It's far from being an uncommon sight these Autumn days to see mothers of little girls making their way to our second floor annex where our cases are crammed with new fall garments for children of all ages. Mothers have learned from past experiences that this children's store saves her time and trouble regarding clothes for her little girls, and we appreciate the compliment the mothers unhesitatingly pay us when they come here season after season, confidently expecting us to supply their needs. You may rest assured that this season, as in the past, we have prepared for you to the best of our ability.

Serge Dresses \$2.98 Up

SERGE DRESSES for little girls age 2 to 6 years in navy and shepherd's checks in cute styles, including middie dresses, and trimmed in white pique collars and cuffs and other attractive touches of trimming, and priced at \$2.98 to \$7.50.

In the 6 to 10 year range of sizes, most of the dresses are of Navy Serge, although, there is a sprinkling of shepherd's checks and other fabrics. Here the trimmings follow closely the styles of the women's frocks and show braid trimmings, fancy stitcheings and embroidery work with attractive collars. This range also shows the popular middie dress. The prices range from \$5 to \$17.50.

Paul Jones Middies For Children

When you say Paul Jones you've said just about all that is necessary to say about middies. Well, these are Paul Jones Middies. They come in ages from 6 to 14 years and in various styles and combinations. For instance you can have the all white Middy, then you may have a Copen or a Navy collar. Then some have Serge collars and you also can have an all blue Middy. Come and see the assortment and pick out your favorites. Prices \$2.00 to \$3.50.

An Electric Sew Motor or a Complete Electric Sewing Machine

One is a simple little motor which you can attach to your own machine. It does all the work—all you do is guide the cloth under the needle—always under perfect control.

The other is a complete electrically operated sewing machine. No larger than a type writer, it can be carried about the

house and used anywhere; it takes little closet room when not in use. It does more than the best foot-power machine.

Either is operated from any socket—using no more current than a lamp.

Wouldn't you like to see how easily you really can sew?

Drop in and let us show you.

CREATES SCENE

When Mrs. Katie Hauck-Gaff, formerly of this city, now living at Ashland, yesterday persisted in raising trouble over the possession of her two children who reside with relatives here, she was taken into custody by the police and is being detained at the city prison.

Mrs. Hauck met the children on the street as they were returning from Sabbath school yesterday morning, they refused to accompany her and then Mrs. Hauck created a scene, it is said, by attempting to take possession of them. The children told the police they did not want to go with their mother and they were allowed to proceed on their way home.

Columbia Grafonolas at Dixie's.

Officers Elected

At a well attended meeting of the local Jewish congregation in the Temple, Third and Washington streets, Sunday afternoon, the following officers were elected for the ensuing year:

President, Simon Lahod.
Vice-President, A. Schapiro.
Secretary, Samuel Hordow.
Treasurer, Philip Jacobs.
Trustees, Felix Haas.

Buy Lots.
Frank Schuank, W. A. Spitzer, Fred Dierker, have bought one lot and Bernard Buring has bought two lots in Spitzler subdivision. Real Estate Dealer P. W. Kilmore put through the deals.

Allen Injured.
Clayton Allen, of Rural Route 1, Portsmouth, sustained a sprained ankle Saturday afternoon about 3:30 o'clock when the bicycle he was riding collided with an automobile which Allen claims was driven by H. H. Oakes, of 1622 Grand street. The accident happened at Fifth and Market streets, Allen's bicycle being badly damaged in the collision. Foster took an X-ray of the ankle to determine if it was broken.

Many School Children Are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They Break up Colds, Relieve Feverishness, Constipation, Teething Disorders, Headaches and Stomach Troubles. Used by mothers for over 20 years. "MOTHER GRAY'S SWEET POWDERS GIVE SATISFACTION." All Drug Stores. Don't accept any substitute.

To Enjoy Vacation.
P. H. Kehoe of the Portsmouth Banking Company left Monday for Camp Brookside near Arton where he will spend two weeks. Mrs. Kehoe will leave Monday for a visit with relatives at Moscow, O.

REGISTERING TO VOTE.
BERLIN, Oct. 5.—More than 100,000 natives of the eastern provinces who are scattered over Germany and who are eligible to vote in the approaching plebiscite, already have registered at the election bureau in Thun, West Prussia, and further applications are coming in such number that it has been found necessary to establish branch bureaus in West Prussia and the Rhine provinces. Those persons who are unable to pay their fares to former homes are being given free transportation.

HOW TO KEEP OHIO DRY

Sample Ballots Marked For A Vote Against The Four Wet Proposals
(Initiated Proposals on Separate Ballot) (Referendum Proposals on Separate Ballot)

Proposed Amendments to the Constitution

(Proposed by Initiative Petition)	
ARTICLE XV, SECTION 9-1	
That a section to be known as Section 9-1, Article XV of the Constitution, be adopted to provide that the phrase "Intoxicating Liquor" shall not be defined or construed to mean any beverage which is in fact non-intoxicating and that no beverage containing two and three quarters or less per cent of alcohol by weight shall be deemed an intoxicating liquor.	
YES	NO
X	
(Proposed by Initiative Petition)	
ARTICLE XV, SECTION 9	
To repeal state-wide prohibition of the sale and manufacture for sale of intoxicating liquors as a beverage, viz. Section 9, Article XV of the Constitution, vice the laws relating to intoxicating liquors in violation of the laws relating to intoxicating liquors. In force and effect November 4, 1918; to adopt proposed Section 9, Article XV of the Constitution, providing for the licensing of the traffic in intoxicating liquors as a beverage and for the limitation of the number of saloons in territory where the traffic is not prohibited under general local option laws applying to municipalities, residence districts within municipalities, townships containing no municipalities or townships outside of municipalities therein, providing for home rule in said subdivision under general local option laws and limiting the definition and construction of the phrase "Intoxicating liquor."	
YES	NO
X	

These four proposals to be voted on in Ohio November 4 were petitioned for by the liquor interests. The two amendments to the Constitution proposed by initiative petition would, if adopted, define intoxicating liquor as liquor containing more than 2.75 per cent alcohol, would repeal the state-wide Prohibition amendment, adopted last fall, would re-establish the license system and license laws. Should the courts hold with the wets that the State, and not Congress, can define intoxicating liquor, and should either or both of these proposed amendments be adopted, unrestricted beer saloons will be opened everywhere in the State. These places will run seven days a week, and all night if they desired to do so, and will sell to children, as well as to men and women.

These two proposed amendments will be on a ballot by themselves. Vote "NO" on both.

The two referendum proposals were petitioned for by the wets in an effort to undo the action of the Legislature in ratifying the National Prohibition Amendment, and in enacting the law enforcement code. The question is on sustaining the Legislature. If you believe in National Prohibition and in the enforcement of the state-wide Prohibition amendment, vote "YES" on both the referendum proposals.

With Ohio jails empty under Prohibition, with work houses depleted in population, with crime, drunkenness and misery decreased, it would be a crime against humanity and a disgrace to the State of Ohio to vote aid and comfort to the pro-German brewers. Keep these ballots, study them, talk with your friends about them, and when you vote, mark the ballots in your booth as they are marked on these sample ballots.

Registration Days, October 17, 18. Election Day Tuesday, November 4

J. B. HAWK, Secretary and Manager, Scioto County Dry Federation

—Adv.

FARMERS SHOULD INSPECT WHEAT BINS

The Indian grain moth, a common grain insect, but little known in this locality, has been discovered by John Violet of Lucasville, after several bins

dried bushels of wheat was damaged to the extent so as to be unfit for seedling purposes. The adult is a small dark gray moth which lays eggs hatching in four or five days into a small worm which feeds upon the grain and of wheat thus running it for seed purposes. Wheat kernels are often webbed together in small clumps and if left undisturbed a web will be found over the entire top of grain.

Treatment: Place Carbon bisulphide in open shallow pans at various places throughout the grain bin on top of wheat and in extreme cases place a small amount each of the same solution down in the wheat. Use five pounds of Carbon bisulphide to 1,000 cubic feet of space in granary. Close as near air tight as possible for 24 hours, then air well.

Caution: Keep fire away from solution. It may take two such treatments. Same treatment will kill weevil. The grain moth has been discovered in several other grain bins since Mr. Violet's experience. That great damage may be done in a short time is

proven from the fact that Mr. Violet had taken wheat from the bin only a few weeks before and no damage was done at that time.

Mrs. Robert Johnson of 1519 Summit street is seriously ill with rheumatism.

ZEMO STOPS ITCHING, HEALS ECZEMA

A CLEAN ANTISEPTIC LIQUID

For torturing, itching eczema there is nothing as good and efficient as this clean, antiseptic wash, ZEMO.

Just go to any drug store and get a 25c trial size, or extra large bottle for \$1.00, and be convinced that ZEMO is a safe, efficient and economical treatment for eczema and other forms of skin or scalp troubles.

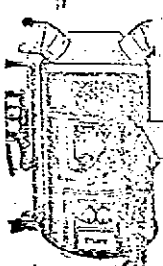

ZEMO is easy and pleasant to use; no grease, smear or stain.

ZEMO SOAP is antiseptic and healing, should also be used if skin is sensitive or irritated.

Laundry Workers To Strike

HUNTINGTON, Oct. 5.—Chicago laundrymen, with collars turned inside out instead of washed, may become the fashion in Huntington as the result of the announced intention of the principal laundries of the city not to operate their plants today. Their action is taken in anticipation of the expected walkout of the Laundry Workers, who recently organized and have demanded recognition.

DAN CUPID SPEEDS UP IN SEPTEMBER

A total of 30 marriages were issued at the town probate office during the month of September and it promises to be the latter month of the year in this respect, as the record for marriages was set in the month of August.

The laundries, owners say there will be a walkout the middle of the week, at the latest and that they do not wish to embarrass their patrons by being unable to deliver clothes already in the wash.

Capital City Team Too Heavy For The Locals

The N. & W. football team acquitted themselves well Sunday when they won their first game away from home in Columbus, the Columbus team being defeated by the score of 14 to 0. Although defeated the locals played a splendid game and put up a strong fight. The boys claim that the Columbus boys should not have had the score, and blame their defeat on the referee. The bad decisions, and the fact that Gib Kendall was taken out on account of injury and Adams was put out for roughness, took all the life out of the locals, the winners. The Columbus team was composed of the following players:

Chippewaves	11	Shoemaker
Shoemaker	12	Johnson
Johnson	13	Hoyt
Hoyt	14	Murphy
Murphy	15	Bordner
Bordner	16	Warner
Warner	17	Mellown
Mellown	18	Brown
Brown	19	Shaw
Shaw	20	Falout

According to Mgr. Putzke, the Columbus team had 47 men out in uniform. The team put on the field outplayed the N. & W. team 25 points to the man.

The Columbus eleven scored their thirteen points in the last half. In the third quarter Kendall suffered a leg gash on his head and Adams, who played fullback, was banished from the field. Adams is the smallest man on the local team and went through the small gaps in the Columbus line too often to suit the Columbus captain.

The N. & W. boys were on the Columbus three yard line when Adams was put out. This took the pep out of the locals and they lost the ball to the Columbus team. The big game was a reference. The bad decisions, and the fact that Gib Kendall was taken out on account of injury and Adams was put out for roughness, took all the life out of the locals, the winners.

The Columbus team was composed of the following players:

Chippewaves	11	Shoemaker
Shoemaker	12	Johnson
Johnson	13	Hoyt
Hoyt	14	Murphy
Murphy	15	Bordner
Bordner	16	Warner
Warner	17	Mellown
Mellown	18	Brown
Brown	19	Shaw
Shaw	20	Falout

SPORT SALAD

The Reds are a quiet and domestic bunch, and do not plan on any splurge when they draw their riches. They really all intend to stay right at home for the winter, after brief hunting and fishing trips. Only one man seeks the great outdoors—Harry Schermer, the only infielder. Schermer, who is a native of Iowa, and this man's tales of South America filled him with interest. He has arranged, as soon as the series ends to join his former comrade, and they are going direct to Lima. Then they are going direct to Lima. Then they are going direct to Lima.

The rest of the Reds will do as follows:

Pat Moran—A short western trip to home.

Helme Groh—Hunting and fishing in the Vermont mountains, then home.

Ray Fisher—Will accompany and guide Helme Groh.

Nick Allen—Back to the Kansas farm.

Shoemaker—Shippard work in Philadelphia.

Charles Sox—Home trip on Long Island.

W. H. White—Hunting trip, then back to the baseball plantations.

Bill Gordon—The farm at Bedford, Ind.

Ed Bosh—The farm at Oakland, Ind.

André Lague—Havana and winter baseball with the island clubs.

Walter Wheeler—San Francisco and a trip to Honolulu in December.

Jimmy Hines—Most hunting in the state of Brooklyn and the Bronx.

Bob Eller—A long trip, hunting and fishing, on the Illinois river with Bob Veach of Detroit and Ray Chapman of Cleveland.

Stan Miller—Back to the tobacco farm at Hinesport.

Bob Bressler—Home to Flemington, Pa.

Ray Mitchell—On business at Bedford, Pa.

Eddie Turner—Work at Hog Island, Pa.

Jack Hamilton—Cool business at Sny Island, Pa.

Morris Bath—Up to Chicago to get married to Philadelphia.

Tony Kopy—Back to the automobile business in the east.

Jimmy Smith—Pittsburgh, and get married in November.

Pat Duncan—Hunting camp in southern Indiana.

Earl Neale—College coaching.

Gert McCann—Elihu coaching track.

The attendance for the first four games was 207,500, and the total receipts \$251,290. Of the receipts the players get \$207,516.60; the club, \$24,773.40 and the national commission \$8,990.00.

It is now believed that the Cleveland and St. Louis teams, runners up in their respective leagues, will receive about \$1,500 each, and the Cubs and Yankees, who finished third and fourth, will receive about \$750 apiece.

The winners of the present series will receive \$25,000 apiece, and the losers about \$4,500.

The Red barriers have started the season in their tracks. The team is a unit, only the 211 in the first four games. A team that has won a pennant with its war clubs should not expect to win a world series by hitting over the 200 mark. So far the Red barriers have started the season in their tracks. The team is a unit, only the 211 in the first four games.

There is a big team club in the country that would like to have the Red barriers, pitching star of the Cincinnati club, on its pay roll today. Yet few of the fans are aware of the route by which Eller went to the majors, and of the base ball league that is the Blackman, then secretary of the Major League club, one of the Three I League, and the secretary of the Major League club, one of the Three I League.

Eller and Barnes of the Giants were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915.

Eller and Barnes of the Giants were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915.

PENNY ANTE

The Fellow Who Gave The Last Party

prohibit one club in organized baseball receiving any team outside organized base ball that harbors a player suspended by any other club in organized base ball.

The Henry Grays dropped Eller and Gary Herriman had them to play the games or be liable for failure to fulfill his contract. Eller was then called to Mullin.

"Here's your chance to break into the big league," he was told. "Christy Mathewson knows pitchers. We want to sign you for a new contract for next season. Then we'll lift your suspension so that you can play in the exhibition at Henry. Go out there and show Mathewson what you've got and it's a cinch Cincinnati will draft you."

Did want to Henry and he pitched against the Reds. Maffey claimed him in the draft and had been seen before by Mathewson the old pitching master's judgment.

CHICAGO, Oct. 5.—Tyron Raymond Cobb still is the premier batter among the regulars of the American league, according to complete ball model averages made public Saturday. The Detroit outfielder during the past season hung up a batting mark of .351 in 121 games, one point less than his 1918 record and giving him the league leadership for the eleventh time in the last thirteen seasons. In addition, the "Georgia Peach" was second in base stealing, second in number of hits and second in total bases.

In league, Eddie Murphy, pinch hitter for the champion Chicago White Sox, led with an average of .337, but he participated in only thirty-one games and only a few times did he play a full game. Following close on Cobb's heels was Harris, the Cleveland Indian slugger, with a mark of .335. Harris made a valiant effort during the last week of play to overtake his rival's lead and at one time was only a point behind. In the final game of the season, however, the trader rallied and swatted three hits in four attempts of White Sox pitchers, thus clinching the leadership.

Veach, 1918's hitting star, while second in the averages, hitting .322, while Cobb, of St. Louis and Cleveland, another Detroit, followed with records of .311 and .307, respectively. Ted St. Louis, .302; Ruth, Boston, .291; Leonard, St. Louis, .281, were other leading sluggers.

There is a big team club in the country that would like to have the Red barriers, pitching star of the Cincinnati club, on its pay roll today. Yet few of the fans are aware of the route by which Eller went to the majors, and of the base ball league that is the Blackman, then secretary of the Major League club, one of the Three I League, and the secretary of the Major League club, one of the Three I League.

Eller and Barnes of the Giants were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915.

Eller and Barnes of the Giants were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915.

Eller and Barnes of the Giants were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915. They were the best pitchers of the Major League and have been in the Major League since 1915.

Offers Good Suggestion

The traffic going north should keep to the right of the fence, also the traffic coming south. This would prevent a reckless driver from crowding, as it would be better to run his machine into the iron railing than to crash into a machine whose driver was using every precaution to prevent an accident, and which usually is the innocent victim to a distressing accident.

Very Respectfully,
MRS. JAS. M. CROWE.

JACKSON NEWS

JACKSON, Oct. 5.—The death of Edward L. Stephenson of Cincinnati created a vacancy in the Presidency of the Commercial Bank of Jackson, and at a special meeting of the directors, John M. Martin who retired as Treasurer of Jackson county, Sept. 1, was elected Director. Thereupon Samuel E. Stephenson was promoted to the Presidency, Daniel J. Herbert to the Vice Presidency and John M. Martin was elected Cashier. The assistant cashiers were S. A. Carpenter and S. A. Stenberger.

Samuel E. Stephenson has been active in the management of the bank since the death of his father. Herbert was taken on the staff of the bank in 1900, and has earned his advancement to the Vice Presidency. He is on duty daily. Martin was connected for a number of years with the Citizens Bank and then served four years as county Treasurer.

David E. Williams of Ethel, Miss., came back to this county last week after an absence of forty-two years to visit relatives and his old home and was accompanied by his wife and Mrs. Margaret E. Jones. While in the county, they attended religious services at Ethel and in the church where a luncheon was served. All the Williams family, including Mrs. Williams, who is now in the county, are in the county. The Williams family, including Mrs. Williams, who is now in the county, are in the county.

Frank Jenkins was the name of a man, resident of Jackson, who was arrested on a charge of larceny. Jenkins was picked up by the North End by Sheriff Ricker, and brought to the county jail, where he languished, awaiting his hearing.

Held For Investigation. Frank Jenkins, 19, was the name of a young man, resident of Jackson, who was arrested on a charge of larceny. Jenkins was picked up by the North End by Sheriff Ricker, and brought to the county jail, where he languished, awaiting his hearing.

"FORBIDDEN"

FALL FATAL TO ADAMS COUNTY BOY

One of the most distressing accidents which occurred in Adams county happened yesterday afternoon about 1:30 o'clock, when a young Stephenson was taken to the hospital, where he died before medical aid could be reached. The boy, who was about 12 years old, was from Liberty township, and was riding on a bicycle when he fell from a high tree and suffered a broken neck. He lived only three hours after the fatal fall.

The boy's name was John Stephenson, a young man of West Side. He regained consciousness after being brought to the home of his parents, Mr. and Mrs. Thomas Stephenson, 1115 Twelfth street, Sunday. He remembered nothing of what happened to him after he was seized by a man as he was leaving an outbuilding about 10 o'clock. He said his assailant threw him to the ground after putting his hand over his (Henderson's) mouth to prevent him from shouting.

When the young man was found nearly two hours later his values including a watch and a small sum of money were missing. It is believed that the young man was drugged.

Sheriff Ricker went to the scene Saturday night with the New Boston bloodhound to investigate the case. The dog took a trail which led to the top of the hill and there lost it and the chase abandoned.

Henderson Unable To Throw Any Light On His Assailant

Mystery still surrounds the finding of John Henderson, a young man of West Side. He regained consciousness after being brought to the home of his parents, Mr. and Mrs. Thomas Henderson, 1115 Twelfth street, Sunday. He remembered nothing of what happened to him after he was seized by a man as he was leaving an outbuilding about 10 o'clock. He said his assailant threw him to the ground after putting his hand over his (Henderson's) mouth to prevent him from shouting.

FAVORABLE WEATHER FOR GAME

Williams And Eller Probable Pitching Choice

The probable batting order for today's game follows:
Chicago: Leland, rf.; Collins, 2b.; Weaver, 3b.; Jackson, lf.; Tjelt, cf.; Gaudin, lb.; Bishop, ss.; Schalk, c.; Williams, p.
Cincinnati: Ruth, 2b.; Hamber, lf.; Groh, 3b.; Housh, cf.; Dunne, lf.; Kopp, ss.; Nantz, rf.; Burdett, c.; Kuehler or Eller, p.

CHICAGO, Oct. 6.—(The weather this morning was clear and cool, indicating that the fifth game of the world's series would be played this afternoon. "The forecast for the day is, "fair with moderate temperature."

CHICAGO, Oct. 6.—Victorious in three of the first four world series games, the Cincinnati Reds were out today to lay the fifth contest of the series postponed yesterday when a downpour of rain, setting in late Saturday night, soaked Comiskey field to such an extent that playing was impossible.

Victory selections for the battle this afternoon were uncertain, but so far as indications from the Sox camp could be discovered, Manager Gleason's choice was to be "Chum" Lefay, Williams.

Manager Moran's pitching choice seemed to lie between "Red" Eller, who has been held in reserve, and Walter Kuehler, who beat the Sox in the opener at Cincinnati. Kuehler is the general choice of the experts because of the sensational game he twirled when the series opened.

Local supporters of the Sox expressed the belief today that the rain yesterday was a blessing in disguise, as the lay-off gave Gleason's men a chance to rest and plan a new line of attack.

Although the Sox are fighting with their backs to the wall, they say they are not discouraged. They point out that they have faced more desperate situations than the present one and came through with a rush.

August Hermann, president of the Cincinnati club, was flooded today with telegrams of encouragement from Cincinnati fans, who are convinced that the series will end tomorrow with their favorites in possession of the world's championship.

Troops Patrol Gary Streets To Quell Rioting

GARY, IND., Oct. 6.—State troops today patrolled the avenues leading to steel plants and parts of the city, where disorders were liable to develop, four companies having been brought here late last night from Indiana Harbor and East Chicago, where 12 companies were quartered, after rioting was resumed here by strike sympathizers.

Late at night hundreds of strikers began to congregate before the gates of the United States Steel Corporation plant and the mill of the American Sheet & Tin Plate Company. Police and special deputies closed a route of a crowd of strikers and of automobiles and stones were thrown. Finally the situation became so threatening that Mayor William F. Hodges called on Adjutant General Harry H. Smith, of Indiana, who is in command of the troops ordered into the district by Governor Goodrich when rioting broke out Saturday night to send several companies of soldiers and he believed affairs had got beyond control of the police.

USE CLUBS ON CROWDS
While the troops were on the way here in street cars, the police succeeded in dispersing the crowds after using their clubs freely and making more than a dozen arrests. Mayor Landon M. Harrison, of the battalion sent here, reported to Mayor Hodges and after a brief conference, the guards were distributed at various points where it was believed disorders might occur.

A foreman for the United States Steel Corporation, who had been on strike for two weeks, would return to work during the day and that many plants which have been idle for two weeks would begin operations.

Union leaders increased their picket lines early today in an effort to prevent desertions and asserted that they looked for no material reduction in their ranks. John Fitzpatrick, chairman of the national committee, conducting the strike, who planned to leave for Washington tonight to confer with heads of the American Federation of Labor, said many members were being taken into the union every day.

CHICAGO—Charges between strike sympathizers and the police and special deputies during the last 24 hours in the Chicago district did not deter heads of steel mills from attempting to start additional plants today.

Company officials claimed they had assurance that large numbers of men who have been on strike for two weeks would return to work during the day and that many plants which have been idle for two weeks would begin operations.

Who the permanent chairman will be had not been settled, but Secretary Lane, one of the first to suggest such a conference, was among those mentioned. With the exception of those of the railroad workers, the representatives of all elements concerned were reported to be on hand and ready to start. A meeting of railroad union leaders was held this morning in an effort to adjust the controversy.

Railway Strike In Britain Ends

LONDON, Oct. 6.—With dramatic suddenness in the quiet of the London Sunday afternoon it was announced to a knot of people waiting in Downing street, that the great railway strike, which appeared to have brought the country almost to the brink of revolution, was settled, and that the strikers would resume work as quickly as possible.

The terms of settlement are in the nature of compromise. The official terms of settlement are as follows:
First: Work shall be resumed immediately.
Second: Negotiations will be resumed on the understanding that they shall be completed before the end of the year.

WERTON MILLS RESUME
STEUBENVILLE, Oct. 6.—The mills of the Weirton Steel Company, at Weirton, West Virginia, resumed operations this morning and are running fifty percent, according to General Manager John C. Williams of the Weirton Steel Company. The Weirton mills were down last week.

STRIKERS HOLDING FIRM
YOUNGSTOWN, Oct. 6.—An effort by a slight increase in the number of men entering the plant of the Youngstown Sheet & Tube Company early this morning, there was no change as the third week of the steel strike began here today. The Carnegie Steel Company now has 1100 men at work out of a normal 88 thousand and the sheet and tube company about 700 against a normal 15,000. These men are employed chiefly in repair and upkeep work. The valley remains quiet and orderly and the strikers are holding firm.

STRIKERS' RANKS STRONG
CLEVELAND—The steel strike in Cleveland entered its third week today with union leaders declaring their ranks are as strong as on the day of the walk-out and plant officials, nearly all without any definite plans for resuming operations.

MORE WORKERS BACK
BALTIMORE.—The management of the Sparrows Point branch of the Bethlehem Steel Corporation reported yesterday that the number of the plant workers at work today and declared that indications were the tin production of the mill would be back to normal in a few days.

Bare Plot For The Wholesale Murder Of Whites

LINCOLN, GA., Oct. 6.—Jack Gordon and Will Brown, negroes, were lynched by a mob here early today and their bodies burned. The victims of the mob were charged with having shot Deputy Sheriff Roy Freeman and Mayor Gordon near here late Saturday. Freeman is not expected to live.

ELAIN, ARK., Oct. 6.—Discovery of what is believed to have been a widespread plot on the part of organized negroes for a general killing of whites in this locality, and possibly in other parts of the South, led officials today to tighten up on emergency measures and redouble their efforts to apprehend leaders of the alleged or suspected conspiracy.

WASHINGTON, Oct. 6.—President Wilson had another good night and apparently his condition continued to improve. During the morning Rear Admiral Grayson, his personal physician, held another consultation with Rear Admiral Stark, head of the naval medical school, and Dr. Sterling Ruffin, of this city.

WASHINGTON, Oct. 6.—While President Wilson's condition steadily is improving, his physicians made it clear today that they did not intend to relax at once their treatment of the patient, carrying with it a prohibition against official acts of any character.

Those attending the president are much encouraged at his improvement and feel it is likely to mean that he is definitely on the way to recovery, but they care to take no chances of a setback. They regard absolute rest as an essential safeguard against such a development and they do not propose to permit him to leave his bed until all danger of it is passed.

Mr. Wilson was described today as showing somewhat because he was permitted to give any attention to official matters but Rear Admiral Grayson, his personal physician, said that on the whole he was proving "a good patient." He wanted to prepare a statement for the industrial and labor conference opening here today, but his physician would not allow it. Dr. Grayson arranged to consult again today with the other physicians, who were called in last week to see the president. It was said that while the president's condition remained as it is now, at least one other physician besides Dr. Grayson would see him daily.

The president's illness prevented members of the supreme court from making their customary call on him on the opening day of court.

60 KILLED IN TRAIN CRASH
MEXICO CITY, Oct. 5.—Sixty persons were killed today in the wreck of the Ixtapa-Mexico City passenger train, which was derailed between Veracruz and Saltillo. Belief is expressed that a complete survey of the wreckage will show that at least 15 more were killed in the accident.

making their customary call on him on the opening day of court.

INDUSTRIAL CONFERENCE OPENS TODAY

WASHINGTON, Oct. 6.—Interest in the nation's industrial situation, brought to a point regarded as critical because of increasing controversies between capital and organized labor, centered here today where representatives of the three elements in national life, capital, labor and the public, were to sit in conference. Their aims as expressed by President Wilson when he issued the call for the meeting, will be to arrive at some "common ground of agreement and action with regard to the future conduct of industry."

Final details of arrangements for the conference were completed last night when Secretary of Labor William C. Brownell, Attorney General Palmer and Bernard Baruch, the last named one of the public's representatives, conferred with Secretary Tamm at the White House. The conference, which will be held in the non-American building, will be opened at 2:30 o'clock. Secretary Lane, one of the first to suggest such a conference, was among those mentioned. With the exception of those of the railroad workers, the representatives of all elements concerned were reported to be on hand and ready to start. A meeting of railroad union leaders was held this morning in an effort to adjust the controversy.

Henderson Unable To Throw Any Light On His Assailant

Mystery still surrounds the finding of John Henderson, a young man of this city, in an unconscious condition Saturday night at Henry Springs, West Side. He regained consciousness after being brought to the home of his

parents, Mr. and Mrs. Thomas Henderson, 1115 Twelfth street, Sunday. He remembered nothing of what happened to him after he was seized by a man as he was leaving an outbuilding about 9 o'clock. He said his assailant threw

him to the ground after putting his hand over his (Henderson's) mouth to prevent him making an outcry. When the young man was found nearly two hours later his valuables including a watch and a small sum of money were missing. It is believed

that the young man was drugged. Sheriff Riekey went to the scene Saturday night with the New Boston bloodhound to investigate the case. The dog took a trail which led to the top of the hill and there lost it and the chase abandoned.

Officers Elected

At a well attended meeting of the local Jewish Congregation in the Temple, Third and Washington streets, Sunday afternoon, the following officers were elected for the ensuing year.

Treasurer, Philip Jacobs.
Trustee, Felix Haas.

FOR SALE—Chevrolet in good condition. Phone 11, ask for Fordley.
Noon to Evening

Moran Confident Series Will End In Cincinnati

(BY PAT MORAN)
(Manager of Cincinnati Reds)
CHICAGO, Ill., Oct. 6.—"I've got a suspicion that why 'Kid' Gleason conspired with the Chicago weather man to bring on rain Sunday and halt the world series programme."

"For the day of rest appeals as a first class 'break' in favor of the White Sox. Had we played Sunday, the Sox probably would have used Claude Williams after only three days layoff, and working a man every third day soon times has an effect on his twisting

wing, but the rain came on and now the left hander gets four full days, which is rest enough for anybody, but the postponement Sunday means that when we beat Williams on Monday the Sox won't have any chance to nibble it with the word 'overworked.'"

We were going out to beat the Sox in a hurry Monday. It's our plan to end this world series battling in the quickest possible time and the way to do it is to get the jump on the opposition in the early innings and then stop them every time they attempt to do

any rallying. It's our belief that we'll wind up the series in Cincinnati soon and perhaps with the first game there on our return jaunt. For the boys all through the series have played almost unbeatable base ball, and they aren't going to "crack." They're not that kind.

"Kid" Eller will be our pitching selection for Monday's game, and when "flood" takes the mound the Chicago folks are going to look upon another truly great pitcher. A youngster who has everything and a little something beyond."

Children Are Victims Of Auto Accident Sunday

Automobiles driven by Mrs. Clarence Nodder, of Gallia street, and Miss Edna Hauck, of Offshore street, collided near Dry Run, on the West Side, Sunday afternoon. Double son of Mrs. Nodder, was thrown from the front seat and was bruised under the right eye. Other occupants of the machine were not injured, but both cars were damaged considerably.

The left front wheel on the Nodder machine was smashed, the front axle was bent, the bumper was bent and the left fender was smashed. The left front fender of the Hauck car was damaged and the left door was dented by the force of the impact. The Nodder says she had slowed her car down to almost a standstill when the Hauck car darted around a Ford machine and collided with her Hudson touring car, which was taken to the J. S. Howe garage for repairs.

Paul Estel Shively, one-year-old son of Mr. and Mrs. Earl Shively of Front and Scioto streets, suffered a badly fractured forehead and a severe shock Sunday morning about eleven o'clock, when a Ford touring car driven by Virgil Deltz and an Oldsmobile driven by Arthur Vonderheide, son of J. Vonderheide, of 1523 Eleventh street, collided at Third and Waller streets. Pearl Shively, Frank Truitt and Virgil Deltz also suffered injuries in the accident. The steering wheel bruised Deltz's chest and Miss Shively and Mr. Truitt suffered from cuts on their foreheads. The baby was injured when thrown from the machine to the paved street.

The frightened party thought the baby was killed, as he lay on his head. The baby was carried to the office of Dr. C. D. Tatje, where his injuries were checked. He suffered over an hour from shock.

Edith Deltz and Mrs. Pearl Shively were also in the machine. Pearl Shively was holding the baby at the time of the accident and let go of him when he was thrown against the side of the car. The Ford machine was only slightly

SHOULD BE VOTE YES

An error crept into an advertisement of the Ohio Dry Federation on the Crable Act which appeared in Sunday's Times. In the space showing electors how to vote "Yes," the word "No" appeared when it should have read

"Yes" with an X before it. The "No" will run in tonight's paper in a corrected form. The Crable Act provides for prohibition of the liquor traffic and will be voted on at the November election.

Health Board To Meet

The Board of Health will meet in regular monthly session at 2 o'clock this afternoon in the council chamber. Business of importance is to be transacted.

POLICE NEWS

OBITUARY
Mary Christine Ferrante
Sleep everlasting came to Mary Christine Ferrante four months old baby of Mr. and Mrs. Patrick Ferrante of 531 Third street about nine o'clock this morning. The baby, the only daughter of Mr. and Mrs. Ferrante was ill three days with stomach trouble. The grief stricken parents have one other child, Joseph Augustus. The many friends of the family will join with them in their hour of sorrow.

Eugene Care, negro, was convicted of disorderly conduct by Mayor Kaps in police court this morning and fined \$10 and costs. Care was arrested in the North End Saturday night after raising a row with John McDonald, colored, who complained to the police. Care was ordered held for further investigation.

A Dodge touring car driven by Henry Atlas skidded on Gallia street during the rainstorm that swept the city Sunday afternoon, jumped the curb and ran into the side of the Central National Bank when Mr. Atlas brought the car to a stop with no damage to the machine or the occupants.

Louis Younger, charged with intoxication and disorderly conduct, pleaded guilty and was taxed the costs. May Mitchell, white girl, and Irving White, colored, arrested at the latter's home, 1230 Fifteenth street, late Saturday night by the police, were dismissed with a warning. The girl is a niece of the negro's wife and she was ordered to get her clothes and stay away from the negro's home.

To See Big Game
William Zofmann of Offshore street will go to Cincinnati Tuesday to see the Reds and White Sox play.

Parasol a Mark of Honor.
It was not until the eighteenth century that the parasol became distinctly an article of feminine costume. Large and elaborate parasols have from time immemorial been a mark of honor and official dignity in the Orient. In India, in 1877, when the then prince of Wales made his famous tour, he was compelled, that he might properly impress the natives, to ride upon an elephant and have over his head a parasol with a frame of gold, and with a covering studded with precious jewels.

Womanly Will.
A young lady whose dramatic shiftness was greater than her personal attractions called on a popular manager with the view of obtaining a part. The manager chatted about the value of good looks to a woman, ending up with, "Beauty is to a woman what brains are to a man." "There's only one thing more valuable to a man than brains," said the young lady. "What's that?" asked the manager. "Tact" was the reply.

An Exacting Alaskan.
Wanted, a Wife—Honest and capable man wishes a wife; age not a bar; must be good cook and able to take care of home. Have several hundred dollars in the bank, a comfortable cabin and a promising claim. No photograph need apply.—From the Valdez Miner.

To Enjoy Vacation
P. B. Kelce of the Portsmouth Banking Company left Monday for Camp Brookside near Arion where he will spend two weeks. Mrs. Kelce will leave Monday for a visit with relatives at Moscow, O.

Famous Applan Way.
The Applan way was the first great Roman road formally undertaken as a public work. It is said. It was begun in 312 B. C. by Applan Claudius Censor. Today the Applan way forms one of the most notable memorials of antiquity in or near the Eternal city, bordered by tombs and the ruins of monumental buildings. Long stretches of the pavement remain perfect. The width of the Applan way was from 14 to 18 feet.

Gate for Stairs.
Procure a piece of heavy canvas and hem to fit the required space; sew a snap hook to each corner. Place two screw eyes on each side of the wall, one as near the floor as possible, the other in the width of the canvas from lower one. The canvas is readily snapped in place on the screw eyes, forming an effective gate. With a screw in the bolster the gate can be snapped out of the way when the kiddies are in bed.

HALE YOU SEEN COMMUNITY SERVICE BABY?

Pictures of "Bible," the Community Service Baby may be seen in several downtown store windows. "Bible" is known to a good many people in Portsmouth, but Bible is only one of the many children who have been rescued and protected from cruelty, neglect, ignorance and want by the child welfare department of the Bureau of Community Service. Three little girls, who a year ago were the victims of criminal surroundings, disease, cruelty and neglect, were taken care of and the man responsible for their conditions is serving a sentence in the pen. Few people would recognize these same little girls now as they go happily to school, their laughing, plump little faces smiling broadly and no trace of the misery in which they were found. Their father, who had abandoned them, has been brought into court, and compelled by the court to pay a part of their maintenance at the Children's Home.

They are only three in a large number of children rescued by the Bureau of Community Service. The Bureau of Community Service has cured for over 1000 children, clothed, protected, fed, and given a chance. Even yet, for a happy and youthful life. Ninety-eight children were cared for at the Fresh Air Camp this summer. Is the work of the Bureau worth while? Ask those who have known these cases for the answer.

Suppose your daughter—twelve years old—could go to school some morning having no idea where she would stay that night nor where she would get her dinner? Impossible you say—that is what happened in Portsmouth to a sweet little girl, whose mother was carried off by the flu. Her father telephoned to the Bureau of Community Service and she was taken home to supper and to stay a few days at the home of the Bureau's Worker. When her story was told to a few people, three families wanted her. She is a daughter now, in a home that has been bereaved of its own child. She is now secure in the protection of loving parents, while she goes happily on with her studies.

Can you think of fifty girls in Portsmouth needing immediate aid of one kind or another, but chiefly protection from evil influences—the protection that is the right of every young girl and not finding it? The Bureau of Community Service has cured for over 1000 children, clothed, protected, fed, and given a chance. Even yet, for a happy and youthful life. Ninety-eight children were cared for at the Fresh Air Camp this summer. Is the work of the Bureau worth while? Ask those who have known these cases for the answer.

Do you know that by its efforts for the prevention of Trachoma, the Bureau has brought about a Trachoma clinic that has saved more than one hundred people from possible blindness and has more cases than that, still to be operated upon? Is the work of the Bureau worth while?

Do you know that the Bureau was instrumental in organizing the Baseball League where you spent your recreation hour last summer? Do you know that it was organized by the time that the young men of Portsmouth (and perhaps most of the other ones too) needed recreation? Do you know that the playgrounds for the children of Portsmouth were maintained all summer by the Bureau of Community Service?

Did you realize that its aid has been extended to fifty little sufferers from bad tonsils and adenoids, to have them removed, free, by some big hearted physicians of Portsmouth, at the Bureau's Dispensary?

And what about the boys and girls who have had shoes and clothing provided for them so that they could go to school?

Well, the Bureau is a pretty good Scout, don't you think? If so, why not support the Bureau by contributing liberally in the coming campaign?

FARMERS SHOULD INSPECT WHEAT BINS

The Indian grain moth, a common grain insect, but little known in this locality, has been discovered by John Violet of Lucasville, after several hundred bushels of wheat was damaged to the extent so as to be unfit for seed purposes. The adult is a small dark gray moth which lays eggs hatching in four or five days into a small worm which feeds upon the germ of wheat thus rendering it unfit for seed purposes and in extreme cases for all purposes. Wheat kernels are often worked together in small clusters and if left unharmed in a web will be found over the entire top of grain.

Treatment: Place Carbon Bisulfide in open shallow pans at various places throughout the grain bin on top of wheat and in extreme cases place a wooden cloth of the same size as the bin in the wheat. Use five pounds of Carbon Bisulfide to 1,000 bushels of space in granary. Close as near air tight as possible for 36 hours, then air well.

Caution: Keep fire away from solution. It may take two such treatments. Some treatment will kill weevil. The grain moth has been discovered in several other grain bins since Mr. Violet's experience. These can also be done in a short time is proven from the fact that Mr. Violet had taken wheat from the bin only a few weeks before and no damage was done at that time.

Laundry Workers To Strike

HUNTINGTON, Oct. 6.—Chicago of the expected walkout of the Laundry Workers who recently organized and have demanded recognition. The laundry owners say there will be a walkout the middle of the week at the latest and that they do not wish to embarrass their patrons by being unable to deliver clothes already in the wash.

The monthly meeting of the West End Improvement Association will meet Monday night in their offices in

Allen Injured.
Clayton Allen, of Rural Route 2, Portsmouth, sustained a sprained ankle Saturday afternoon about 2:30 o'clock when the bicycle he was riding collided with an automobile which Allen claims was driven by C. H. Oakes, of 1622 Grant street. The accident happened at Fifth and Market streets. Allen's bicycle being badly damaged in the collision. Foster took an X-ray of the ankle to determine if it was broken.

DAN CUPID SPEEDS UP IN SEPTEMBER

A total of 39 marriages were issued at the local probate office during the month of September and it promises to be the banner month of the year in this respect, as the record far surpasses any other month so far. Cupid was very much on the job in this vicinity during the past week, having plotted 22 couples to the license desk during the past six days. Four licenses were obtained Saturday as follows:

John L. Quisick, 39, housekeeper, city, and Jessie O. Mason, 30, housekeeper, city, Spire Finey.
John H. Hale, 21, railroad brakeman, Nolan, W. Va., and Edith Garrett, 20, shoemaker, city, Rev. A. J. Averitt.
Clude Jones, 34, carpenter, Cincinnati, and Mary Conn, 23, domestic, city, Spire Finey.
D. W. Hylen, 35, teacher, Williams, W. Va., and Laura B. Moore, 28, teacher, city, both colored, Rev. John L. Quisick, 39, housekeeper, city.

Modern Merchandising Depends On Trucks
"Modern merchandising owes its development in large measure to the general adoption of motor delivery trucks," says Alex M. Gluckner, local dealer in Chevrolet passenger and commercial cars.

OFFICER RICKEY STILL AMONG MISSING

Two weeks have now elapsed and undivided to change his plea to guilty. Patrolman Paul Rickey under indictment on a charge of assault and battery, was still among the missing Monday night. Patrolman Noah Payne, also was indicted on a similar charge but surrounded and placed in custody, will not be put on trial until the return of Justice Thomas from Jackson where he went Sunday to court for a couple of weeks.

The officers were indicted for an assault upon Edward "Red" Clifford at police headquarters on the night of August 21 last. Clifford at the time being under arrest.

World's Skating Record.
A skater in Stockholm, Sweden, has established a world's record by traveling 10 miles in 34 minutes 7 1/2 seconds, according to Popular Mechanics magazine.

CREATES SCENE OVER CHILDREN

When Mrs. Katie Hauck-Goltz, formerly of this city, now living at Ashland, yesterday persisted in raising trouble over the possession of her two children who reside with relatives here, she was

taken into custody by the police and is being detained at the city prison.

Mrs. Hauck met the children on the street as they were returning from Sabbath school yesterday morning they refused to accompany her and then Mrs. Hauck created a scene, it is said, by attempting to take possession of them. The children told the police they did not want to go with their mother and they were allowed to proceed on their way home.

Blue Triangle Room To Be Opened Friday Night

When you see the lights Thursday night and hear the music at 200 Gallia street, drop in for the opening night pleasures of the new Y. W. C. A. recreational room, at "The Sign of the Blue Triangle."

EVERY GIRL in the city of Portsmouth and it's going to be a jolly good place.

The rooms open Thursday and on Thursday, Friday and Saturday evenings there will be special opening features.

The warmth of real friendliness will envelop you, the glad hand of democracy will be extended to greet you—it's the home from that time on of

Thursday Miss Alice Blake's String Chair will furnish the music. There will be informal dancing.

That evening and Friday evening Dr. Elizabeth Edwards, Industrial Secretary, will be present to keep the ball rolling.

Mrs. Eric Layton Gates, Field Secretary, and Mrs. Marie Chamberlain, Field Worker, will be at the Blue Triangle rooms on Saturday evening.

Miss Carol Simmons, local Recreational Secretary, will be in charge of arrangements at the room. Everyone is invited to come out and help make the Blue Triangle rooms a real success.

Wanted, a Wife—Honest and capable man wishes a wife; age not a bar; must be good cook and able to take care of home. Have several hundred dollars in the bank, a comfortable cabin and a promising claim. No photograph need apply.—From the Valdez Miner.

Venerated Relic Lost.
The Black Hood was a relic brought to Scotland by the wife of Malcolm Canmore, and long held in extreme veneration by the Scots. It consisted of a cross of gold, including a piece of the true cross, set in an ebony figure of Christ. It was deposited with the regalia in Edinburgh castle, and carried with them to England by Edward I, and used by him to give increased solemnity to the oaths he exacted from the Scottish magnates. All trace of it is now lost.

Rainy Day and Business.
Someone figured that a rainy day cost New York an unconscionable amount of money. Women, he explained, disbursed 55 per cent of the money earned by men. On rainy or dark days they remain indoors mostly. Store sales were curtailed, traffic reduced and nearly every class and character of business was affected adversely. Theaters, movie shows, ball games and general amusements suffered seriously.

The Beneficent Bat.
The government of the United States has discovered that the bat, instead of being useless and worthless, as is generally thought, is really most valuable. He is the inveterate enemy of all insects that bite at night. In recent investigations bats shot in the evening after flying for 12 minutes were found with stomachs so clogged with mosquitoes, snails and small flies that it was difficult to see how they could eat any more.

Expression Exally Understood.
Are sticks really cross, and if so, why should two sticks be particularly cross? Hold the two sticks before you to form the letter X or the cross. It is from this rather cheap trick and poor pun that we derive the expression that a person is as cross as two sticks.

Rubber Preservative.
A preparation that may be used for preserving rubber may be made by getting a saturated solution of turpentine in benzine alcohol. The point of saturation is known by a drop of undissolved turpentine remaining in the alcohol. A little more alcohol is added to dissolve this drop and the solution is saturated. Rubber articles should be occasionally painted or swabbed with this solution.

Lily Leaves as Rafts.
Down in the Madras district of India there are lilies that grow leaves of phenomenal size. Indeed, these leaves are several feet in diameter and have turned up edges to form a shallow bowl which floats on the water. The buoyancy of these leaves is such that they will readily carry the weight of a small child, as shown in the accompanying illustration. This variety of lily is known as the Victoria Regia—Scientific American.

LOOKS LIKE THERE'S NO END TO THE JOB

LOST—Cameo pin, probably in downtown section. Cameo was heirloom. Liberal reward for return to Times office.

Really No Problem at All.
The question of the weight of a fish in water was settled over 250 years ago. It is said that Charles II of England once asked for a solution of the problem as to why a pail of water should weigh no more after a live fish was placed in it than before. The reasons ascribed by scientists were many but no definite conclusions were reached. Finally one man, more practical than the others, tried the experiment and discovered that the weight was increased just as much as the fish weighed.

World's Skating Record.

A skater in Stockholm, Sweden, has established a world's record by traveling 10 miles in 34 minutes 7 1/2 seconds, according to Popular Mechanics magazine.

Flex in Amber.
The history of the flex would seem to go back many centuries, but the only fossil remains of a flex that has so far been found is a single flex in a bit of Baltic amber. The flex is admirably preserved by its semi-transparent surroundings, and is in the collection of Professor Ciesla.
